MAY WHEAT BREAK FRIGHTENS BULLS

Decline Followed by Withdrawal of Support by Leading Bulls.

Chicago, Ill., May 6 -- A break of 4% c a bushel in the price of May wheat today was followed with withdrawal pf
support by leading bulls. Trade, however, was only scattered. Other months
weakened with May, although the larter delivery made a quick raity of
2%c.

The market stocks were almost
equally distributed between small
gains and small losses.

Rain in the Canadian northwest was Rain in the Canadian northwest was partly responsible for the decline.

Opening figures here were %c lower to 88%c, dropped to 88%c and closed to 88%c, dropped to 88%c and closed casy at 88%c to 88%c.

Lightness of country offerings tended to make corn firm, but the break in wheat more than offset this July opened unchanged to %c higher at 52%c to 52%c.

Good buying by a local house gave some stiffness to oats. July started unchanged to %c higher, at 32%c to 32%c, and steadled at 32% to 32%c. Higher quotations for hogs lent help to provisions. First sales were unchanged to 5c higher, with July pork at \$14.87%; lard \$3.02% to \$8.05; ribs, \$7.87% to \$7.90.

Deafness Cannot Be Cured by local applications, as they cannot reach the discased portion of the car. There is only one way to cure denfaces, and that is by constitutional remedies. Denfaces is caused by an inflamed condition of the muscous libility of the Eurinchian Ture. When this tube is inflamed you have a rumbling sound or importest hearing, and when it is entirely closed, Denfaces is the result, and unless the inflammation can be muce out and this tube restored to its normal condition, hearing will be destroyed forever: ninc cases but of ten are caused by Catarria, which is nothing and an inflamed condition of the nuccuis surfaces.

director of the state irrigated experithat Armour & Co., of Chicago; had agreed to furnish the station free of cost any fertilizers they might desire to experiment with for this section of the country. Heretofore no fertilizer to amount to anything has been used here, but the results obtained from where it has been used, have been do successful as to make further investigations along experimental lines very

There are now planted 14 different kinds of grapes, mostly California varieties, at the station here, and among other interesting experiments is one being made with Summatra tobacco. The plant is young yet, as planted here, but is taking on fruit rapidly and so far is looking splendidly. Manager Stewart is handling the tobacco exactly as is done in Cuba, Hawaii, Florida and other shade tebacco countries.

E. P. Turner, general passenger agent of the T. & P. Ry., has arrived in the city on an inspection of the Pecos valley along development lines. He said the he looked for a greatly increased immigration business into the Pecos valley of Texas from now on. "Notwithstanding the fact that your section of the state bas been receiving perhaps as There are now planted 14 different

the state has been receiving perhaps as large a share of the immigration husiness coming into the state as any other part; I can see no reason why, with the developments produced here, this movement should not be greatly increased. increased, because the homeseeker, when he realizes as he is rapidly doing

when he realizes as he is rapidly doing the great advantages of irrigation for farming, will inevitably give the irrigated section the preference."

A general rally of the Prohibitionists of the Texas Peoos valley will be held in this city Sunday night. Speeches will be made by Woody Johnson, judge J. F. Ross, M. L. Swinehart, Esq., of Pecos and district judge S. J. Isaacks, of Midland. Music will be furnished by the Pecos Commercial club band.

Collier, Love & Stamper have brought

Collier, Love & Stamper have brought in a well 18 miles south of Pecos with an estimated maximum flow of 1806 to 2000 gallons of water per minute, which in reality is little short of a river. This well will irrigate about 600 acres of land, an dits daily capacity of water reaches a total of 2,880,000 gallons, enough to appoly a small city for all enough to supply a small city for all domestic uses. It is to date one of the largest producing wells yet brought in the proved shallow water belt, in fact, this well enlarges the proved belt several miles. DE LARA CASE WITH THE JURY

Sealed Verdict May Be Returned During Afternoon in County

Court. L. Gutierrez de Lara, charged with attracting a crowd and inciting a riot still has his case before a jury in the

county court. The case was one on appeal from the corporation court in which he was convicted on a charge of attracting a crowd, but the riot case was filed

The jury had falled to reach a ver dict at 2:30 and judge Eylar left it to continue its deliberations and return a sealed verdict, if one should be reached. This, he said, he would open at 5

The offence is alleged to have oc-curred on the night of April 8, 1911, when a mass meeting was held at the corner of Fifth and Stanton streets. De Lara at the time made a sp derogatory to the government of Diaz and stated that he would make another speech at Stanton and Overland streets. He was arrested by chief of police Ben Jenkins.
A crowd followed him up the street

to the police station, where he was lodged. Five policemen were hit with stones and several false alarms of fire were turned in and the firemen stoned De Lara was tried in the corporation court on charges of disturbing the peace and attracting a crowd, and was found guilty by a jury on the latter charge and fined \$25. He gave notice of appeal to the county court, but be-fore he could leave the courtroom, was rearrested by a deputy sheriff on a charge of inciting a riot. He was taken to the county jall. He furnished bond and was about to leave the county jall, when he was rearrested on a charge of perjury in connection with his trial in police court, the complaint hinging on whether or not he asked the crowd to go with him to Stanton

Last Tuesday he was released upon furnishing bond in the sum of \$250 in the perjury case, and his trial in the county court opened Friday afternoon.

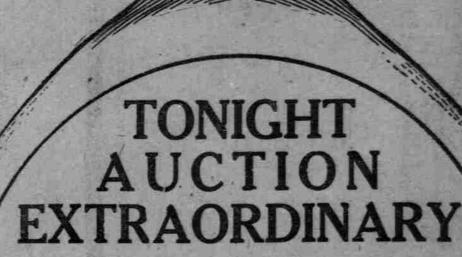

Among the witnesses for the prosecution were mayor C. E. Kelly, alderman W. S. Clayton, chief of police Ben Jenkins and W. W. Rose.

CONDITION IN MEXICO IS BAD

United States Hears That Situation There Is Very Serious. Washington, D. C., May 6,-Officials

of the administration are watching closely developments in the situation at Mexico City, where Americans are reported to be alarmed for their safety. The only dispatch received by the state department today on the subject confirmed the press dispatches, the statement that some rioting occurred in the capital yesterday, but was quelled by the police without difficulty or loss of life. An order has been issued that all shutters of all business houses be kept closed.

folly to allow Diaz to remain in office. "Diaz was not elected by the people; he is a usurper," declared Madero this morning. "I was not elected; nobody is elected in Mexico; they have no elections. That is why I am willing to re-sign my claims to the presidency if Diaz will resign his and allow a fair question if he would insist that Diaz

must resign before peace is restored.

Reves is Pacific.

The insurrector are pleased with a cablegram which senor V. Carranza, provisional governor of Coahulla, is said to have received from Gen. Bernardo Reyes as the former Mexican minister of war set sail from France. The telegram is evidently meant to dispel the insurrecto fears of mischief from Reyes when he returns, for it informs the insurrecto leader of Coahulla that the general has great respect and friendship for the rebel fighters, and he asks genor Carranza to assist him in the work that he will undertake on his Madero's Views. 9

No constitutional elections have beet held in Mexico in recent years, there-fore neither himself nor Porfirio Diaz was elected president, and Diaz is a usurper, is Madero's position regarding the retirement of Disz.

"In the San Luls Potosi preclamation I said Diaz was a usurper and I still contend for this point," declares Madero, "There have been no real, legal and constitutional elections in Mexico, therefore there have been no presidents elected. I was not elected because the election was not a constitutional one Diaz is, in fact, president but he is a usurper. I am the legal president, but not the constitutional president, because the election that selected me was not a constitutional one.

"The reason I insist upon Francisco De La Barra assuming the presidency retirement of Diax and Corral, According to the Mexican constitution, when the president is absent the vice president must act, and when both the president and vice president are absent, the minister of foreign relations must of-ficiate. However, De La Barra's choice is not a vital point and will not be

"I have been acting wholly upon my own judgment in all matters pertaining to the welfare of the Mexican people. I have consulted with my leaders and they have suggested, but in the end I have and will act according to my own judgment, and will do what I think is right and best for the people."

The Fountain Head of Life Is The Stomach

A man who has a weak and impaired stomach and who does not properly digest his food will soon find that his blood has become weak and impoverished, and that his whole body is improperly and insufficiently nourished.

Dr. PIERCE'S GOLDEN MEDICAL DISCOVERY makes the stomach strong, promotes the flow of digestive juices, restores the lost appetite, makes assimilation perfect, invigorates the liver and purifies and enriches the blood. It is the great blood-maker, flesh-ballder and restorative nerve tonic. It makes men atrong in body, active in mind and cool in judgement.

This "Discovery" is a pure, glyceric extract of American medical roots, absolutely free from alcohol and all injurious, habit-forming drugs. All its ingredients are printed on its wrappers. It has no relationship with secret nostrums. Its every ingredient is endorsed by the leaders in all the schools of medicine. Don't accept a secret nostrum as a substitute for this time-proven remedy of known composition. Ask your neighbors. They must know of many cures made by it during past 40 years, right in your own neighborhood. World's Dispensary Medical Association, Dr. R.V. Pierce, Pres., Buffalo, N Y
